Academics and practitioners from all over the world have contributed original articles, practical notes and viewpoints which critically examine the ways in which civil society organisations are affected by and are responding to political and financial dynamics. These include reductions in traditional external aid for civil society activities, but also the growth of new forms of funding through social enterprise, philanthropy, fundraising and contractual relationships with national government. The operating environment for civil society is a central theme, with authors exploring the legitimacy and credibility of different types of civil society organisation, as well as the effects of legislative and regulatory restrictions on their sustainability. The contributions finally examine new opportunities for civil society and the prospects for organisations to emerge that are less dependent on foreign aid funding, that are more embedded in local communities, and that can bring about lasting and sustained social and economic change. This book was originally published as a special issue of *Development in Practice*.

**Revolution by Love** Dec 25 2021 "This story reveals how young Arab women and men from the Middle East and North Africa, who come from very diverse backgrounds, regions, continents, share the same passion for their countries, the same audacity of hope for a better tomorrow, the same dream of making their country proud of them. All of the writers who were committed to this project were deeply convinced that one should not ask what their country will do for them, but rather what could they offer for their countries. In a world where barriers are constantly being erased, where virtual communication turns the world into a global village, what is this strange bond that ties this young Arab youth to politics and public affairs?"--Back cover.

*Tortilleras Negotiating Intimacy* Dec 01 2019 *Tortilleras Negotiating Intimacy: Love, Friendship, and Sex in Queer Mexico City* is the first ethnography in English to focus primarily on women's sexual and intimate cultures in Mexico. The book shows the transformation of intimacy in the lives of three generations of women in queer spaces in contemporary Mexico City, as their sexual citizenship changes, including references to same-sex marriage and anti-discrimination laws. The book shows how these individuals reconfigure relationships through marriage, polyamory, friendship, and sex. *Tortilleras Negotiating Intimacy* suggests that "new" intimate cartographies are emerging in Mexico City, ultimately redefining relationships, gender, and mexicanidad. Building on ethnographic data collected over the past decade, including forty-five in-depth interviews with women between the ages of twenty-two and sixty-five participating in LGBT spaces, *Tortilleras Negotiating Intimacy* shows how lesbian women (mainly cis, but some trans) negotiate friendship, same-sex marriage, polyamory, and sexual practices, reinventing love, eroticism, friendship, and ultimately the social organization of Latin American societies.

**Where Reincarnation and Biology Intersect** Apr 04 2020 Children who claim to remember a previous life have been found in many parts of the world, particularly in the Buddhist and Hindu countries of South Asia, among the Shiite peoples of Lebanon and Turkey, the tribes of West Africa, and the American northwest. Stevenson has collected over 2,600 reported cases of past-life memories of which 65 detailed reports have been published. Specific information from the children's memories has been collected and matched with the data of their claimed former identity, family, residence, and manner of death. Birthmarks or other physiological manifestations have been found to relate to experiences of the remembered past life, particularly violent death. Writing as a specialist in psychiatry and as a world-renowned scientific investigator of reported paranormal events, Stevenson asks us to suspend our Western tendencies to disbelieve in reincarnation and consider the reality of the burgeoning record of cases now available. This book summarizes Stevenson's findings which are presented in full in the multi-volume work entitled *Reincarnation and Biology: A Contribution to the Etiology of Birthmarks and Birth Defects*, also published by Praeger.

**Jews and the Making of Modern German Theatre** Oct 03 2022 While it is common knowledge that Jews were prominent in literature, music, cinema, and science in pre-1933 Germany, the fascinating story of Jewish co-creation of modern German theatre is less often discussed. Yet for a brief time, during the Second Reich and the Weimar Republic, Jewish artists and intellectuals moved away from a segregated Jewish theatre to work within canonic German theatre and performance venues, claiming the right to be part of the very fabric of German culture. Their involvement, especially in the theatre capital of Berlin, was of a major magnitude both numerically and in terms of power and influence. The essays in this stimulating collection etch onto the conventional view of modern German theatre the history and conflicts of its Jewish participants in the last third of the nineteenth and first third of the twentieth centuries and illuminate the influence of Jewish ethnicity in the creation of the modernist German theatre. The nontraditional forms and themes known as modernism date roughly from German unification in 1871 to the end of the Weimar Republic in 1933. This is also the period when Jews acquired full legal and trade equality, which enabled their ownership and directorship of theatre and performance venues. The extraordinary artistic innovations that Germans and Jews co-created during the relatively short period of this era of creativity reached across the old assumptions, traditions, and prejudices that had separated people as the modern arts sought to reformulate human relations from the foundations to the pinnacles of society. The essayists, writing from a variety of perspectives, carve out historical overviews of the role of theatre in the constitution of Jewish identity in Germany, the position of Jewish theatre artists in the cultural vortex of imperial Berlin, the role played by theatre in German Jewish cultural education, and the impact of Yiddish theatre on German and Austrian Jews and on German theatre. They view German Jewish theatre activity through Jewish philosophical and critical perspectives and examine two important genres within which Jewish artists were particularly prominent: the Cabaret and Expressionist theatre. Finally, they provide close-ups of the Jewish artists Alexander

Granach, Shimon Finkel, Max Reinhardt, and Leopold Jessner. By probing the interplay between “Jewish” and “German” cultural and cognitive identities based in the field of theatre and performance and querying the effect of theatre on Jewish self-understanding, they add to the richness of intercultural understanding as well as to the complex history of theatre and performance in Germany.

**Equality and Justice** May 30 2022 “With this book, Twiza has succeeded in causing a crack in the fortress built by certain obsolete educational practices that tend, more often than not, to buckle from the inside, a community of practice that is eager and ready to develop collaborative outreach programmes. These extra-curricular activities constitute the soft skills universities continue to ignore. Through constant dialogue across borders of all sorts, Twiza will undoubtedly broaden the crack until all voices are heard to let a genuine civil society emerge, aware of its individual and collective engagement towards human rights. The envisaged result: a society more prone to commitment towards equity and justice. This is not dreamland. It is the sheer volume of the youth potential.” —Dr. Mohamed MILIANI Dip. TEFL, M.Ed, PhD, University of Oran – Algeria “An ambitious yet fully realized project that truly embarks on transnational knowledge making, civil engagement, and cross-cultural dialogue through writing. The voices in this book demonstrate that undergraduate students have the ability to creatively enact social justice to develop a better world. They offer a deep hope for an improved global society. Equality and Justice is a must read for composition teachers who seek to engage their students in real-world matters and a must read for students who seek a vision for a different world.” — Dr. Rebecca Dingo, University of Massachusetts

**Jewish Identities in German Popular Entertainment, 1890-1933** Aug 28 2019 Paying homage to the many ways in which German Jews were instrumental in the birth of an incomparably rich world of popular culture, this study traces the kaleidoscope of challenges, opportunities and paradoxes Jewish men and women faced in their interactions with predominantly gentile audiences. Modern Germany was a society riddled by conflicts and contradictory impulses, continuously torn between desires to reject, control and celebrate individual and collective difference. The book demonstrates how an analysis of popular entertainment can reveal much about a period of great social and political turmoil.

**Children Who Remember Previous Lives** Aug 09 2020 This is the revised edition of Dr. Stevenson's 1987 book, summarizing for general readers almost forty years of experience in the study of children who claim to remember previous lives. For many Westerners the idea of reincarnation seems remote and bizarre; it is the author's intent to correct some common misconceptions. New material relating to birthmarks and birth defects, independent replication studies with a critique of criticisms, and recent developments in genetic study are included. The work gives an overview of the history of the belief in and evidence for reincarnation. Representative cases of children, research methods used, analyses of the cases and of variations due to different cultures, and the explanatory value of the idea of reincarnation for some unsolved problems in psychology and medicine are reviewed.
