Mustang by Design Jan 31 2020 p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial} Without question, the 1964-1/2 Mustang is one of the most important and influential cars in automotive history. When Ford launched the Mustang, it created an automotive revolution. Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and, in fact, his initial design sketch formed the basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford facilities to get the real, unvarnished story. Gale Halderman offers a unique behind-the-scenes perspective and firsthand account of the inception, design, development, and production of the original Mustang. With stinging losses from the Edsel fresh in minds at Ford, the Mustang project was an uphill battle from day one. Lee Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile, but with the help of Hal Sperlich's detailed market research, the project received the green light. Henry Ford II made it clear that jobs were on the line, including Iacocca's, if it failed. The process of taking a car from sketch to clay model to prototype to preproduction and finally finished model is retraced in insightful detail. During the process, many fascinating experimental cars, such as the Mustang I two-seater, Mustang II prototype, Mustang Allegro, and Shorty, were built. But eventually the Mustang, based on the existing Ford Falcon, received the nod for final production. In a gala event, it was unveiled at the 1964 World's Fair in New York. The Mustang received public accolades and critical acclaim, and soon it became a runaway hit. After the initial success, Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes. The classic Mustang muscle cars to follow, including the GT, Mach 1, and others, are profiled as well. The Mustang changed automotive history and ushered in the pony car era as a nimble, powerful, and elegantly styled sports coupe. But it could so easily have stumbled and wound up on the scrap pile of failed new projects. This is the remarkable and dramatic story of how the Mustang came to life, the demanding design and development process, and, ultimately, the triumph of the iconic American car.

**Summer Places: A Boxed Set** Feb 23 2022 A Note From the Author: Nantucket. Martha's Vineyard. Newport. Magical names, all three of them, because they call forth images of ocean-swept beaches, rose-covered cottages, seafaring Captains' stately homes, and all of the laid-back charm that islands can bring. Is there anyone who hasn't wanted, if only for the length of a vacation, to live on one? But here's the thing about islands: for all of the obvious pleasures that they offer, they have some aspects that would make any mainlander a little crazy. Take transportation. Having to take a ferry makes a quick lunch with a friend on the mainland a fantasy, and a trip to Target a major project. (Nantucket is a long ferry ride from the mainland, and Martha's Vineyard isn't much closer. Even Newport, despite its bridge to the mainland, can have cars so backed up that a ferry could easily beat them.) Food. True islanders do not expect miles of aisles and fourteen different kinds of peanut butters; they know how to do without. Movie theaters: one seems plenty. A living wage? Only during tourist season. Housing? You can tell a local's home from a summer house because the local's house will probably need paint. That is, if the local can actually afford to keep a house on the island, the one where he was born and raised, to begin with. The gap between the Haves and the Have Nots in such places is especially glaring. It's a running theme in the three novels featured in the boxed set, SUMMER PLACES. Three New England locales are explored in three novels -- each of them capturing the the highs and the lows of a way of living that most of us can only dream about. In BELOVED, set on Nantucket, unemployed Boston graphic designer Jane Drew inherits a ramshackle cottage, which may or may not be haunted, from her aunt, who may or may not have been a witch. Before long, Jane is butting heads with one of the locals, Mac McKenzie. Mac is descended from generations of hard-working islanders and has very clear opinions of uppity off-islanders. He has little patience for New Age types, moneyed types, and those for whom "antiquing" is a verb. He regards spaghetti as noodles, not pasta, and he drinks water from a tap, not a bottle. Oh, and he doesn't believe in ghosts. Period. When he finds himself up against the insistent, persistent, infinitely irritating Jane Drew with her knack for complicating his life, he does what any self-respecting islander would and shrugs her off -- for a while, anyway. But Mac understands, as Jane does not, that not every force is benign ... and not every force is otherworldly. "BELOVED is pure Magic! The love story between the hero and heroine was complex and moving; what appealing characters!" -- Susan Elizabeth Phillips In SAFE HARBOR, eternal optimist Holly Anderson has managed to carve a nice

little niche for herself as a folk artist on Martha's Vineyard. She's not quite a local, but she's lived on the island year-round and loves everything about it. Her artistry brings her deep satisfaction. Her family summers there. She has made friends there. If she could just afford to buy the house and barn she's renting, fall in love, marry the guy and then have children as sweet as her nieces, life would be pretty much perfect -- but when is life ever perfect? Havoc arrives on the island in the guise of beautiful Eden Walker, a con-woman who's stolen the nest egg of an elderly couple and who promptly seduces Holly's sixty-something father while she's in hiding. Sam Steadman--son of the now impoverished couple -- is furious and determined to find her. After a bumpy start, Sam and Holly join forces to track down the elusive Eden and reclaim both treasure and father. But hearts and minds collide, and shipwrecked emotions are strewn along the way. Will Holly and Sam ever be able to trust one another after the not-so-merry chase? "Great characters, a satisfying love story ... suspense to keep the story moving ... a delightfully drawn setting as the author brings Martha's Vineyard to life ... this woman can write." -- The Romance Reader In SAND CASTLES, Wendy Hodene is one of those people for whom just enough is plenty. She's married to a charmer, has a young son she loves, and lives close to family in a small New England house that her great-grandfather built. True, she'd love to have room for a three-cushion couch (and of course more closet space), but all in all, she's happy with her life. Happy, until her husband Jim goes and wins a lottery, upending every reassuring aspect of Wendy's existence. The man she thought she was married to for a decade turns out to be someone else entirely; the house she thought she wanted renovated turns into a stress-inducing pile of dust and demolition; the son who once desired nothing more than a new video game now wants a big new house on the beach; and the mysterious contractor who shows up among the renovation crew on a fine June morning turns out to be a man who's both able and willing to destroy all that Wendy holds dear. "Well-drawn, sympathetic characters, exceptional writing, and an intriguing premise ... a riveting story of selfishness, betrayal, and love that readers will find hard to put down." -- Library Journal

**Island of the Blue Foxes** Jan 01 2020 The story of the world's largest, longest, and best financed scientific expedition of all time, triumphantly successful, gruesomely tragic, and never before fully told The immense 18th-century scientific journey, variously known as the Second Kamchatka Expedition or the Great Northern Expedition, from St. Petersburg across Siberia to the coast of North America, involved over 3,000 people and cost Peter the Great over one-sixth of his empire's annual revenue. Until now recorded only in academic works, this 10-year venture, led by the legendary Danish captain Vitus Bering and including scientists, artists, mariners, soldiers, and laborers, discovered Alaska, opened the Pacific fur trade, and led to fame, shipwreck, and "one of the most tragic and ghastly trials of suffering in the annals of maritime and arctic history."

**Sand Castles** Mar 27 2022 WINNING A LOTTERY ... who hasn't dreamed of it? Wendy Hodene, for one. She has always been one of those people for whom just enough is plenty. She's married to a charmer, has a young son she loves, and lives close to family in a small New England house that her great-grandfather built. True, she'd love to have room for a three-cushion couch (and of course more closet space), but all in all, she's happy with her life. Happy, until her husband Jim goes and wins a lottery, upending every reassuring aspect of Wendy's existence. The man she thought she was married to for a decade turns out to be someone else entirely; the house she thought she wanted renovated turns into a stress-inducing pile of dust and demolition; the son who once desired nothing more than a new video game now wants a big new house on the beach; and the mysterious contractor who shows up among the crew on a fine June morning turns out to be a man who's both able and willing to destroy all that Wendy holds dear. Zack Tompkins has better things to do than to knock down walls and put in floor joists, but his fragile and heartbroken sister Zina is convinced that the lottery winner whose photo she's seen in a newspaper is the man who once married and then abandoned her. It doesn't take long after he's signed on as crew in the Hodene renovation for Zack to see that Zina was right. His choice then becomes all too clear: wound his sister, or tear apart a family. As dreams and schemes are washed away like sand castles from an incoming tide, one truth remains: some hearts, not fully broken, can mend and still be whole again.
