Clitics in the Languages of Europe Sep 29 2019 The series is a platform for contributions of all kinds to this rapidly developing field. General problems are studied from the perspective of individual languages, language families, language groups, or language samples. Conclusions are the result of a deepened study of empirical data. Special emphasis is given to little-known languages, whose analysis may shed new light on long-standing problems in general linguistics.

An innovative longitudinal/bidirectional

research design, where two languages represent both source and target, show effects of language transfer in learners that, because of their age, still have potential to become native-speakers of the target. An unusual feature of this book is that relevant studies of acquisition of L2 Italian, some heretofore only in Italian, are reviewed, incorporated into the study and made available to a more general audience. Though the main focus is on child SLA, crucial comparisons to both first language acquisition vs. adult SLA are presented. This approach will thus be of interest more generally to readers in first and second language acquisition and child

development.

Issues in Italian Syntax Jan 14
2021 The architecture of the
human language faculty has
been one of the main foci of the
linguistic research of the last
half century. This branch of
linguistics, broadly known as
Generative Grammar, is
concerned with the formulation
of explanatory formal accounts
of linguistic phenomena with
the ulterior goal of gaining
insight into the properties of
the 'language organ'. The
series comprises high quality
monographs and collected
volumes that address such
issues. The topics in this series
range from phonology to
semantics, from syntax to
information structure, from
mathematical linguistics to
studies of the lexicon.

**L'uomo che voleva
uccidermi** Nov 04 2022 In una
fredda sera di dicembre,
Ishibashi Yoshino saluta le
amiche per andare a incontrare
il suo ragazzo in un parco di
Hakata, nella città di Fukuoka.
Il mattino successivo, il
cadavere della giovane viene
rinvenuto nei pressi del valico
di Mitsuse, un luogo impervio e
inquietante: è stata
strangolata. Chi ha ucciso
Yoshino? Chi è l'uomo che
doveva incontrare al parco?

Perché la cronologia delle
chiamate e dei messaggi del

una storia diversa da quella

una giovane innesca un
intreccio di narrazioni
accomunate dal senso di

più complessa, dalla
desolazione dei paesaggi
urbani, dall'incapacità di

Savonarola's Women Feb 12
2021 Girolamo Savonarola
(1452–1498), the religious
reformer, preacher, and
Florentine civic leader, was
burned at the stake as a false
prophet by the order of Pope
Alexander VI. Tamar Herzig
here explores the networks of
Savonarola's female followers
that proliferated in the two
generations following his
death. Drawing on sources
from the fifteenth and sixteenth
centuries, many never before
studied, transcribed, or
contextualized in Savonarolan
scholarship and religious
history, Herzig shows how
powerful public figures and
clerics continued to ally
themselves with these holy
women long after the prophet's
death. In their quest to stay
true to their leader's teachings,
Savonarola's female followers
faced hostile superiors within
their orders, local political
pressures, and the deep-rooted
misogynistic assumptions of
the Church establishment. This
unprecedented volume

peninsula each tailored Savonarola's life and works to their particular communities' regionally specific needs. Savonarola's Women is an important reconstruction of women's influence on one of the most important and controversial religious movements in premodern Europe.

The Works of Elena Ferrante

Jan 06 2023 This book is the first dedicated volume of academic analysis on the monumental work of Elena Ferrante, Italy's most well-known contemporary writer. *The Works of Elena Ferrante: Reconfiguring the Margins* brings together the most exciting and innovative research on Ferrante's treatment of the intricacies of women's lives, relationships, struggles, and dilemmas to explore feminist theory in literature; questions of gender in twentieth-century Italy; and the psychological and material elements of marriage, motherhood, and divorce. Including an interview from Ann Goldstein, this volume goes beyond "Ferrante fever" to reveal the complexity and richness of a remarkable oeuvre.

Syntactic Parsing Strategies in Italian

Aug 09 2020 The basic accomplishment of sentence processing research in the 1960s and 70s was to establish that perceivers assign structural representations to sentences (Fodor et al., 1974) and they do so systematically using the formation rules of the grammar (Forster, 1979). This may sound like a singularly unimpressive accomplishment

to a contemporary linguist - mere proof of the obvious. But one must recall the extremely impoverished view of language and language processing prevalent in the U.S. in the 1950s. Processing mechanisms were thought to consist of slightly elaborated stimulus-response associations, and sentences were viewed as mere strings of concatenated words. On this view, understanding language comprehension was naturally equated with knowing how words and associations between them were learned. Consequently, language processing was investigated by performing a seemingly endless series of tedious paired associate learning studies. The shift in the 1960s to a view of sentences emphasizing hierarchically organized structures containing grammatical dependencies between widely separated items was thus dramatic.

The papers all discuss data and formalized analyses of one or more Romance languages or dialects, in either synchronic or diachronic perspective, and pay particular attention to the variation and the actual variability that is at stake, not only in syntax and morpho-syntax but also in semantics and phonology. Beyond the discussion of differences between languages and/or dialects from a formalist perspective, the volume also contains a number of papers linking the theme of variation to sociolinguistic issues such as natural bilingualism and micro-contact.

National Best Seller From the best-selling author and Pulitzer Prize winner, a powerful

nonfiction debut—an “honest, engaging, and very moving

account of a writer searching for herself in words.” —Kirkus

Reviews (starred) *In Other Words* is a revelation. It is at

heart a love story—of a long and sometimes difficult

courtship, and a passion that verges on obsession: that of a

writer for another language. For Jhumpa Lahiri, that love

was for Italian, which first captivated and capsized her

during a trip to Florence after college. Although Lahiri

studied Italian for many years

afterward, true mastery always eluded her. Seeking full immersion, she decides to move to Rome with her family, for “a trial by fire, a sort of baptism” into a new language and world. There, she begins to read, and to write—initially in her journal—solely in Italian. In *Other Words*, an

autobiographical work written in Italian, investigates the process of learning to express oneself in another language, and describes the journey of a writer seeking a new voice.

Presented in a dual-language format, this is a wholly original book about exile, linguistic and otherwise, written with an intensity and clarity not seen since Vladimir Nabokov: a startling act of self-reflection and a provocative exploration of belonging and reinvention.
