*Cochrane Handbook for Systematic Reviews of Interventions* Aug 26 2019 Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library ([www.thecochranelibrary.com](http://www.thecochranelibrary.com)). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.

**The Disorderly Knights** Jun 16 2021 This third volume in The Lymond Chronicles, the highly renowned series of historical novels takes place in 1551, when Francis Crawford of Lymond is dispatched to embattled Malta, to assist the Knights of Hospitallers in defending the island against the Turks. But shortly the swordsman and scholar discovers that the greatest threat to the Knights lies within their own ranks, where various factions vie secretly for master.

*Poems and Songs of Robert Burns* Jan 24 2022 *Poems and Songs of Robert Burns* Robert Burns - Robert Burns (1759 – 1796) called himself "an Aeolian harp strung to every wind of heaven." His first volume of poems, entitled *Poems*, Chiefly in the Scottish Dialect, was published in 1786. An immediate success, it established Burns's poetic reputation, which has grown over two centuries to the point where he is not only the Scottish national

poet but the object of a cult unique in British poetry. The present volume contains 43 of his finest poems and songs, reprinted unabridged from an authoritative tenth-century edition. Included are "The Twa Dogs," a deft satire of the Scottish upper classes; "To a Mouse," one of the poet's best known, most charming works; "Address to the Unco Guid," an attack on Puritan hypocrisy; "Holy Willie's Prayer," one of the great verse-satires of all times; as well as such favorites as "The Cotter's Saturday Night," "To a Mountain Daisy," "The Holy Fair," "Address to the Deil," "The Death and Dying Words of Poor Mailie," and many more. It is not necessary here to attempt to disentangle or explain away the numerous amours in which he was engaged through the greater part of his life. It is evident that Burns was a man of extremely passionate nature and fond of conviviality; and the misfortunes of his lot combined with his natural tendencies to drive him to frequent excesses of self-indulgence. He was often remorseful, and he strove painfully, if intermittently, after better things. But the story of his life must be admitted to be in its externals a painful and somewhat sordid chronicle. That it contained, however, many moments of joy and exaltation is proved by the poems here printed. Burns' poetry falls into two main groups: English and Scottish. His English poems are, for the most part, inferior specimens of conventional eighteenth-century verse. But in Scottish poetry he achieved triumphs of a quite extraordinary kind. Since the time of the Reformation and the union of the crowns of England and Scotland, the Scots dialect had largely fallen into disuse as a medium for dignified writing. Shortly before Burns' time, however, Allan Ramsay and Robert Fergusson had been the leading figures in a revival of the vernacular, and Burns received from them a national tradition which he succeeded in carrying to its highest pitch, becoming thereby, to an almost unique degree, the poet of his people. He first showed complete mastery of verse in the field of satire. In "The Twa Herds," "Holy Willie's Prayer," "Address to the Unco Guid," "The Holy Fair," and others, he manifested sympathy with the protest of the so-called "New Light" party, which had sprung up in opposition to the extreme Calvinism and intolerance of the dominant "Auld Lights." The fact that Burns had personally suffered from the discipline of the Kirk probably added fire to his attacks, but the satires show more than personal animus. The force of the invective, the keenness of the wit, and the fervor of the imagination which they displayed, rendered them an important force in the theological liberation of Scotland. The Kilmarnock volume contained, besides satire, a number of poems like "The Twa Dogs" and "The Cotter's Saturday Night," which are vividly descriptive of the Scots peasant life with which he was most familiar; and a group like "Puir Mailie" and "To a Mouse," which, in the tenderness of their treatment of animals, revealed one of the most attractive sides of Burns' personality. Many of his poems were never printed during his lifetime, the most remarkable of these being "The Jolly Beggars," a piece in which, by the intensity of his imaginative sympathy and the brilliance of his technique, he renders a picture of the lowest dregs of society in such a way as to raise it into the realm of great poetry

**The Songs of Robert Burns** Apr 26 2022 In this definitive work for our generation, Donald Low brings together, for the first time, the words and tunes of all Burns' known songs, both 'polite' and bawdy. The Songs of Robert Burns were, in their author's eyes, the crown of his achievement as a poet. After years of study and investigation, many hours spent listening to old airs, as he recalled the living, daily, song-life of the people of Scotland, and through the creation of some of the finest lyric poetry produced in the British Isles, Burns' success is beyond doubt.

Social Memory and History Feb 10 2021 In *Social Memory and History*, a group of anthropologists, sociologists, social linguists, gerontologists, and historians explore the ways in which memory reconstructs the past and constructs the present. A substantial introduction by the editors outlines the key issues in the understanding of social memory: its nature and process, its personal and political implications, the crisis in memory, and the relationship between social and individual memory. Ten cross-cultural case studies—groups ranging from Kiowa songsters, Burgundian farmers, elderly Philadelphia whites, Chilean political activists, American immigrants to Israel, and Irish working class women—then explore how social memory transmits culture or contests it at the individual, community, and national levels in both tangible and symbolic spheres.

*The Civil War* Jan 12 2021 The companion volume to the celebrated PBS television series, with a new preface to mark its twenty-fifth anniversary With more than 500 illustrations: rare Civil War photographs—many never before published—as well as paintings, lithographs, and maps reproduced

in full color It was the greatest war in American history. It was waged in 10,000 places—from Valverde, New Mexico, and Tullahoma, Tennessee, to St. Albans, Vermont, and Fernandina on the Florida coast. More than 3 million Americans fought in it and more than 600,000 men died in it. Not only the immensity of the cataclysm but the new weapons, the new standards of generalship, and the new strategies of destruction—together with the birth of photography—were to make the Civil War an event present ever since in the American consciousness. Thousands of books have been written about it. Yet there has never been a history of the Civil War quite like this one. A wealth of documentary illustrations and a narrative alive with original and energetic scholarship combine to present both the grand sweep of events and the minutest of human details. Here are the crucial events of the war: the firing of the first shots at Fort Sumter; the battles of Shiloh, Chancellorsville, and Gettysburg; the siege of Vicksburg; Sherman's dramatic march to the sea; the surrender at Appomattox. Here are the superb portraits of the key figures: Abraham Lincoln, claiming for the presidency almost autocratic power in order to preserve the Union; the austere Jefferson Davis, whose government disappeared almost before it could be formed; Robert E. Lee and Ulysses S. Grant, seasoned generals of fierce brilliance and reckless determination. Here is the America in which the war was fought: The Civil War is not simply the story of great battles and great generals; it is also an elaborate portrait of the American people—individuals and families, northerners and southerners, soldiers and civilians, slaves and slaveowners, rich and poor, urban and rural—caught up in the turbulence of the times. An additional resonance is provided by four essays, the work of prominent Civil War historians. Don E. Fehrenbacher discusses the causes of the war; Barbara J. Fields writes about emancipation; James M. McPherson looks at the politics of the 1864 election; C. Vann Woodward speculates on how the war has affected the American identity. And Shelby Foote talks to filmmaker Ken Burns about wartime life on the battlefield and at home. A magnificent book. In its visual power, its meticulous research, its textual brilliance, and the humanity of its narrative, *The Civil War* will stand among the most illuminating and memorable portrayals of the American past.

**Theosophical Enlightenment** Oct 21 2021 This is an intellectual history of occult and esoteric currents in the English-speaking world from the early Romantic period to the early twentieth century. The Theosophical Society, founded in 1875 by Helena P. Blavatsky, holds a crucial position as the place where all these currents temporarily united, before again diverging. The book's ambiguous title points to the author's thesis that Theosophy owed as much to the skeptical Enlightenment of the eighteenth century as it did to the concept of spiritual enlightenment with which it is more readily associated. The author respects his sources sufficiently to allow that their world, so different from that of academic reductionism, has a right to be exhibited on its own terms. At the same time he does not conceal the fact that he considers many of them deluded and deluding. In the context of theosophical history, this book is neither on the side of the blind votaries of Madame Blavatsky, nor on that of her enemies. It may, therefore, be expected to mildly annoy both sides. Joscelyn Godwin is a Professor at Colgate University. His previous works include *Arktos*; *Robert Fludd*; *Athanasius Kircher*; *Mystery Religions in the Ancient World*; *Harmonies of Heaven and Earth*; *The Mystery of the Seven Vowels*; and *L'ésotérisme musical en France*.

**Photovoltaic Water Pumping Systems** Sep 07 2020 Photovoltaic Water Pumping Systems: Concept, Design and Methods of Optimization looks at the potential of effectively designed PVPS and how they can be commercially efficient and economically competitive to grid connected or diesel generator (DG) based pumping systems. The low energy conversion efficiency of PV modules, nonlinearity of PV module/array I-V characteristics and the unique maximum power operation point are major challenges of this technology, this book provides readers with design and optimization methods, codes and critical analysis of the recent developments in PV pumping systems. Focusing on system feasibility and suitable applications with design procedures, this reference presents a critical analysis of PVPS field performance, modeling and control strategies using artificial intelligence techniques. A suitable text for researchers, engineers and graduate students who are working in the field of photovoltaics and pumping and systems. Uses open source Matlab codes for PV pumping system optimization Provides global cases studies and design examples for comparison Includes a data source sheet for proposed systems for successful implementation methods
