emerging, others are in deep crisis. The volume starts off with reflections on Dispute Settlement and the World Trade Organisation, most prominently the crisis of the Appellate Body, but also addressing international intellectual property law and the African Continental Free Trade Area. This is followed by a section on Dispute Settlement and Investment Protection/International Investment Law, which includes articles on the summary dismissal of claims, the margin of appreciation doctrine, the use of conciliation to settle sovereign debt disputes, and contract-based arbitration in light of Achmea and Hagia Sophia at ICSID. Further contributions consider the emerging role of commercial courts, the dejudicialization of international economic law, dispute settlement in the UK-EU Withdrawal Agreement, reference mechanisms in dispute resolution clauses, and UNCLOS.

of formal specifications, the case studies also raise questions about the creation, purpose and scope of formal models before they are built. Additional resources and complete specifications for all of the case studies and the RAISE tools used to process them, are available on the World Wide Web. This book will be of particular interest to software engineers, especially those responsible for the initial stages of requirements engineering and software architecture and design. It will also be of interest to academics and students on advanced formal methods courses.

Arbitration Jan 03 2020 International investment law and arbitration is a rapidly evolving field, and can be difficult for students to acquire a firm understanding of, given the considerable number of published awards and legal writings. The first edition of this text, cited

by courts in Singapore and Colombia, overcame this challenge by interweaving extracts from these arbitral decisions, treaties and scholarly works with concise, up-to-date and reliable commentary. Now fully updated and with a new chapter on arbitrators, the second edition retains this practical structure along with the carefully curated end-of-chapter questions and readings. The authors consider the new chapter an essential revision to the text, and a discussion which is indispensable to understanding the present calls for reform of investment arbitration. The coverage of the book has also been expanded, with the inclusion of over sixty new awards and judicial decisions, comprising both recent and well-established jurisprudence. This textbook will appeal to graduates studying international investment law and international arbitration, as well as being of interest to practitioners in this area.

Mediation in International Commercial and Investment Disputes May 07 2020 Until now, the resolution of international commercial and investment disputes has been dominated almost exclusively by international arbitration. But that is changing. Whilst they may be complementary mechanisms, international mediation and conciliation are now coming to the fore.

Mediation rules that were in disuse gather momentum, and dispute settlement centres are introducing new mediation rules. The European Union is encouraging international mediation in both the commercial and investment spheres. The 2019 Singapore Mediation Convention of the United Nations Commission on International Trade Law (UNCITRAL) is aiming to ensure enforcement of international commercial settlement agreements resulting from mediation. The first investor-State disputes are mediated under the International Bar Association (IBA) rules. The International Centre for Settlement of Investment Disputes (ICSID)'s conciliation mechanism is resorted to more often than in the past. The International Chamber of Commerce (ICC) has recently administered its first mediation case based on a bilateral investment treaty, and a new training market on mediation is flourishing. Mediation in Commercial and Investment Disputes brings together a line-up of outstanding, highly-qualified experts from
