Vipers and Virtuosos Jun 30 2022 Aiden From the second I saw her, I knew she'd be my ruin. Sitting all alone at the bar, she looked like an angel. Eurydice in human form; her beauty eclipsed by demons. Now, I'm one of them. The ghost she's tried for years to escape. Thinking I wouldn't be able to find her. But I never stopped trying, and now that I have, her past sins should be the least of her worries. Riley From the moment he saw me, I knew I'd ruin his life. Alone at the bar, I dared the monster to come and play. Orpheus in the flesh, with his sad songs and strange obsessions. I became one of them. The siren who calls to the darkest parts of him. Only, I disappeared before he could act on it. But now he's here, and he wants me to repent for my sins. *** *Vipers and Virtuosos* is a full-length, standalone dark rockstar romance inspired by the myth of Orpheus and Eurydice. Kasher in the Rye Oct 03 2022 Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But *KASHER IN THE RYE* is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the

absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Quilt Love Nov 23 2021 Few of us are fortunate enough to have a handmade quilt handed down through our family. In our grandmother's time, quilt-makers used whatever pieces of fabrics they could lay their hands on, from worn-out clothes to flour sacks and scraps. When the quilt was pieced together, its fabric represented something that was practical, precious and personal - an heirloom that would be passed down for generations. In *Quilt Love*, bespoke quilt designer and maker Cassandra Ellis teaches her freeform design techniques, which rely in part on intuition and improvisation, to enable you to create your own contemporary heirloom. Cassandra takes a refreshing, non-intimidating approach to quilting. She demonstrates how to use your eye and trust your instincts to gather together fabrics that remind you of a special time, person or occasion. Through a wonderful collection of 20 projects - presented in four chapters 'Big Events', 'Love', 'Friendship' and 'Memories' - she shows how to tell stories through patchwork, using fabric to draw together the threads of memories, histories, hope and love. As well as the challenging projects that are true labours of love, such as full-size quilts for beds, there are simple designs for quick and easy projects that you can complete in a couple of hours, including cushions, framed artworks, a tote bag, a pet blanket and a simple curtain. It is also possible to improvise patches from any of the designs can be sewn up to make a cushion cover, for example, or used as the building block for more elaborate designs. Making patchwork and quilts is the perfect opportunity to recycle fabric and use up scraps to make something beautiful and significant that will be treasured for years to come. Cassandra shows how to incorporate fragments of fabric that have special meaning, using a piece that you love as the starting point and core of your design. This could be a cherished item of clothing, a tablecloth or curtain, a piece of heirloom embroidery, or specially chosen contemporary fabric that excites you - whatever you love the look of.

Soft Modeling in Industrial Manufacturing Oct 23 2021 This book discusses the problems of complexity in industrial data, including the problems of data sources, causes and types of data uncertainty, and methods of data preparation for further reasoning in engineering practice. Each data source has its own specificity, and a characteristic property of industrial data is its high degree of uncertainty. The book also explores a wide spectrum of soft modeling methods with illustrations pertaining to specific cases from diverse industrial processes. In soft modeling the physical nature of phenomena may not be known and may not be taken into consideration. Soft models usually employ simplified mathematical equations derived directly from the data obtained as observations or measurements of the given system. Although soft models may not explain the nature of the phenomenon or system under study, they usually point to its significant features or properties.

Practical Jinn Magick Apr 28 2022 Jinn Magick is simple to execute, and the results can be some of the best you will find in all occultism. Much has been written about The Fire Spirits, known as the Jinn (or Djinn), but books of practical Jinn Magick are rare. Hardly any exist, and those that do are often a disappointment. This book reveals a practical method for calling on the Jinn and receiving a response. There are forty-two rituals, and the magick can help with influence and passion or destruction and transformation. The rituals deal with reputation and the souring of love. Some rituals affect competition, uncover flaws, weaken others, improve your discipline or make somebody else burn out. Where you feel stuck, you can find release, and there are ways to create more abundance or make somebody else lose what they have. Rituals can create obsessive thoughts in others and make people see the best in you or the worst in another. They can help you seduce or cause somebody to be sexually disgusted by another person. Financial magick works to increase what you have and can make people appreciate your work or make others lose what money they have. There's great potential if you use your imagination. The magick can be subtle and delicate or life-changing and devastating, according to your wish. Most of the rituals can be modified and are directed at clear, practical results. The Jinn are neither angels or demons, but fire spirits, and they execute your magical wishes with immense power. The magick may only work half the time, but when it does, it works with alarming intensity. The book is expensive, but that's because there's decades of research in here and these secrets should not be given to those who don't value them. Pay a fair price, do the work well, and you will get what you want.
