**Multilingual Thesaurus of Geosciences** Jul 20 2021 This thesaurus is presented in six languages, English, French, German, Italian, Russian and Spanish, and sponsored by the International Council for Scientific and Technical Information (ICSTI) and the International Union of Geological Sciences (IUGS). There is a main list of approximately 5000 key terms together with indexes and translations which include a specific linguistic index and a field index in which key terms have been classified by field.

**Euro-Librarianship** Nov 04 2022 Euro-Librarianship focuses on strategies for working toward cooperation between libraries throughout Europe and the United States to provide the best access and information to research materials as possible. Chapters by several authors in their original languages (with English abstracts) give this book a unique international appeal. Common difficulties such as fiscal constraints and rising book and serial prices are discussed. Stressing enhanced communication and shared responsibilities, this new volume helps bring libraries of all countries closer to the resource sharing capabilities that allow scholars and researchers much wider access to information than is available today. In this timely new book, many of the papers that were presented at the Second Western European Specialists (WESS) International Conference are brought together to be read and studied by everyone.

*Enlarging one's vision* Aug 21 2021 Il processo di internazionalizzazione della ricerca negli ultimi anni ha subito una rapida accelerazione ed ha comportato una serie di innovazioni. Il volume fornisce una serie di indicazioni e strumenti, per facilitare l'acquisizione di una certa dimestichezza con tali processi: come partecipare a congressi rispondendo a call for paper, come pubblicare su riviste straniere, come trascorrere un periodo di studio all'estero e via dicendo. Il libro raccoglie 15 saggi brevi, chiari, concreti e critici al contempo, opera di studiosi già noti e altri più giovani, tutti esperti dell'argomento (G.Bandini, A.Barousse, P.Bianchini, M.Brunelli A.Cagnolati, L.Cappelli, D.Caroli, D.De Salvo, A.Debè, J.L.Hernández Huerta, F.Loparco, J.Meda, E.Patrizi. S.Polenghi, F.Pruneri).

**Computational Science and Its Applications -- ICCSA 2013** May 18 2021 The five-volume set LNCS 7971-7975 constitutes the refereed proceedings of the 13th International Conference on Computational Science and Its Applications, ICCSA 2013, held in Ho Chi Minh City, Vietnam in June 2013. The 248 revised papers presented in five tracks and 33 special sessions and workshops were carefully reviewed and selected. The 46 papers included in the five general tracks are organized in the following topical sections: computational methods, algorithms and scientific applications; high-performance computing and networks; geometric modeling, graphics and visualization; advanced and emerging applications; and information systems and technologies. The 202 papers presented in special sessions and workshops cover a wide range of topics in computational sciences ranging from computational science technologies to specific areas of computational sciences such as computer graphics and virtual reality.

**Eserciziario di basi di dati** Dec 05 2022 Questo testo raccoglie una serie di esercizi relativi all'interrogazione e alla progettazione di basi di dati relazionali. Il testo si rivolge primariamente agli studenti di corsi di basi di

dati erogati nella Laurea di Primo Livello (discipline dell'Ingegneria dell'Informazione) e nella Laurea Magistrale, oltre che ai partecipanti a corsi di formazione su basi di dati per realtà aziendali e per programmi Master.

**Les Accords de Vienne** Dec 01 2019

*Alle pendici dei Colli Albani / On the slopes of the Alban Hills* Nov 11 2020 This volume results from the conference "Between Appia and Latina, Settlement Dynamics and Territorial Development on the Slopes of the Alban Hills", held at the Royal Dutch Institute at Rome (KNIR) in February, 2017. It contains 23 methodological, thematic and material culture studies on the historical topographical reconstruction of the Alban Hills in Antiquity with a focus on the area of contact with the suburbium of Rome. Papers present both data from new research and results of research done in the past. In the initiative a range of research institutions partook (foreign Institutes at Rome, Universities, Archaeological Services) and independent researchers stimulating the exchange of current knowledge of this small, but important part of the Campagna Romana.

*Development and Structures of Creole Languages* Feb 01 2020 This collection of original essays is intended to both celebrate Derek Bickerton's sixty-fifth birthday and honor his long and eminent career. Each author included in the volume is a noted scholar who has distinguished him/herself in some area of linguistics and has professionally or personally interacted with Bickerton and been influenced by his work. While the papers make independent thematic contributions, they also discuss, augment, present alternatives to, or are inspired in some way by Bickerton's seminal ideas or penetrating analyses. The book is organized into 5 sections, each a reflection of a major research period in Bickerton's career: Section 1: Identifying Creoles; Section 2: Language Variation; Section 3: Creole Processes; Section 4: Creole Syntax and Semantics; Section 5: Serial Verbs.

**Notizia delle opere d'arte et d'antichità della Raccolta Correr di Venezia, scritta da Vincenzo Lazari. [A catalogue.]** Oct 03 2022

LATINITATIS RATIONES Oct 23 2021 This volume assembles 50 contributions presented at the XVII International Colloquium on Latin Linguistics. They embrace essential topics of Latin linguistics with different theoretical and methodological approaches: phonetics, syntax, etymology and semantics, pragmatics and textual analysis. It is a useful resource for the study of comparative and general linguistics, not only for linguists but also for scholars of classical philology.

**Comparing Greek Colonies** Apr 16 2021 The need for a "new" book on Greek colonization arose to analyse this phenomenon as a long-term process in a wide geographic area. The events related to individual cities and regions, although geographically very distant from each other, are linked through an articulated network of material and immaterial relations and have to be considered as part of a broader mobility process in a Mediterranean perspective. The intention of "Comparing Greek Colonies" is to bring geographically and culturally distant regions such as Southern Italy/Sicily and the Black Sea, closer together, not merely to find "similarities and differences", but to broaden the scholars' perspective and overcome existing, generalizing, and biased models, that are often rooted in local scientific traditions. The proceedings of the international conference "Comparing Greek Colonies. Mobility and Settlement Consolidation from Southern Italy to the Black Sea (8th - 6th century BC)", 7.-9.11.2018 in Rome, are structured around three core topics (economic system; relationships with the indigenous populations; social and territorial systems) that constitute the cornerstones of the political formation of the polis in the Archaic period and for its development during the Classical and Hellenistic Ages.
