[Leaders](#) Oct 01 2022 When Nikita Khrushchev shouted contempt for the United States in his famous “Kitchen Debate” with Vice President Richard Nixon, Americans gasped at the sudden glimpse of the Soviet leader's character. At the time cameras and reporters were present. But how much more would we have learned if we could have traveled the globe with Richard Nixon and met privately with others who have shaped the modern world? Richard Nixon knew virtually every major foreign leader since World War II—some at the pinnacle of power, some during their “years in the wilderness” out of power, and still others toward the end of their lives. His was an unparalleled opportunity to gain insight into the nature of the powerful and qualities of leadership. In *Leaders*, Nixon shares these insights and experiences. He illustrates these leaders in private, assesses their careers, recalls words of wisdom, and brings to bear his own judgments. We meet the co-architects of the New Japan, Douglas MacArthur and Shigeru Yoshida. Encountering the legendary leaders of China—Mao Zedong, Zhou Enlai, and Chiang Kai-shek—we see the men behind the events. We see the intensely private Charles DeGaulle; explore the philosophies of Konrad Adenauer; confront Leonid Brezhnev; and delight in the company of Winston Churchill—not to mention Nixon’s analyses of interactions with dozens of other leaders. No one but Richard Nixon could have written this book. It is at once as personal as a handclasp and as objective as only so earnest a student of history could have made it.

[Leaders](#) Jan 04 2023 An instant national bestseller! Stanley McChrystal, the retired US Army general and bestselling author of *Team of Teams*, profiles thirteen of history's great leaders, including Walt Disney, Coco Chanel, and Robert E. Lee, to show that leadership is not what you think it is—and never was. Stan McChrystal served for thirty-four years in the US Army, rising from a second lieutenant in the 82nd Airborne Division to a four-star general, in command of all American and coalition forces in Afghanistan. During those years he worked with countless leaders and pondered an ancient question: "What makes a leader great?" He came to realize that there is no simple answer. McChrystal profiles thirteen famous leaders from a wide range of eras and fields—from corporate CEOs to politicians and revolutionaries. He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic. With Plutarch's *Lives* as his model, McChrystal looks at paired sets of leaders who followed unconventional paths to success. For instance. . . · Walt Disney and Coco Chanel built empires in very different ways. Both had public personas that sharply contrasted with how they lived in private. · Maximilien Robespierre helped shape the French Revolution in the eighteenth century; Abu Musab al-Zarqawi led the jihadist insurgency in Iraq in the twenty-first. We can draw surprising lessons from them about motivation and persuasion. · Both Boss Tweed in nineteenth-century New York and Margaret Thatcher in twentieth-century Britain followed unlikely roads to the top of powerful institutions. · Martin Luther and his future namesake Martin Luther King Jr., both local clergymen, emerged from modest backgrounds to lead world-changing movements. Finally, McChrystal explores how his former hero, General Robert E. Lee, could seemingly do everything right in his military career and yet lead the Confederate Army to a devastating defeat in the service of an immoral cause. Leaders will help you take stock of your own leadership, whether you're part of a small team or responsible for an entire nation.

Development for Academic Leaders Jul 06 2020 DEVELOPMENT FOR ACADEMIC LEADERS In addition to their other duties, academic leaders are expected to network with potential donors and to be productive and enthusiastic fundraisers. More often than not, however, academic leaders are given little or no training on how to be savvy fundraisers for their institutions. Development for Academic Leaders is a much-needed resource that offers a concise yet comprehensive guide to fundraising for those who are new to the process. The book clarifies roles, responsibilities, programs, activities, politics, and funding sources as well as offering a review of the overall process. Written by Penelepe C. Hunt, a successful practitioner of and noted expert in academic fundraising, the book includes information on attracting and retaining effective development officers and contains suggestions for deans (and other campus leaders) for working effectively with these valued members of their institutions. Hunt introduces novice fundraisers to the cycle of giving (identification, qualification, cultivation, solicitation, and stewardship) and provides information on how and when to take part in the fundraising process. She defines the various types of funding including annual gifts, major gifts, planned gifts, and principal gifts and reveals why ascertaining which type of gift will be most appealing to a donor is an important part of planning for a successful solicitation. Development for Academic Leaders also contains suggestions for overcoming reluctance on the part of leaders to ask potential donors for a gift. Hunt explains that donors do not give merely because our programs need and deserve support. They give because of their own desires, passions, and aspirations. Development for Academic Leaders also reveals the importance of participating in your institution's overall development communications efforts and offers a general overview of campaign and event principles and how you can use these funding strategies to the advantage of your college. For any academic leader who participates in their program's fundraising efforts, this important resource offers a wealth of information for becoming a creative, skilled, and successful part of the fundraising team.

They have grown up and are comfortable in their skins. Growing down, growing up: In the pages ahead we trace and weave together these two master threads.

Biblical Theology for Ethical Leadership Aug 19 2021 This book argues that ethical leadership without a theological foundation is lacking a firm foundation. It begins with a critical assessment of ethical leadership as a leadership theory, showing how ethics and theology became separated, creating the space for ethical leadership outside of theology. Nevertheless, the author argues that ethical leadership without a biblical basis is weak, though one need not be religious to embrace the leadership principles of biblical theology. Unfolding Christology, anthropology, eschatology, and contextualized leadership as four key aspects of biblical theology for ethical leadership, this book will appeal to those studying leadership, business, innovation, and entrepreneurship.

Opportunities for African American Boys and Men exposes the daily plight of African American boys and men, identifying the social and policy infrastructure that ensnares them in a downward spiral that worsens with each exposure to our system that offers unemployment, low-wage work, marginalization, and incarceration. The book examines why African American boys and men are more sickly and die younger than any other racial group in the United States, have very few health coverage options, and are consistently incarcerated at rates that are wildly disproportionate to their representation of the U.S. population; and it documents how this tremendous injustice comes with a cost that burdens all groups in American society, not just African Americans. Additionally, the author challenges readers to see that all of us must act individually and collectively to right this social wrong.
